Fees of tissue samples for non-commercial applicants

Dear applicant,

The fees for tissue samples from NBM are detailed in the following table. Costs may vary according to the arrangement of the samples ordered.

Area	**Frozen tissue** **per unit[1)]**	**Formalin fixed tissue** **per unit[1)]**	**Paraffin** *or* **frozen section** **(of usually 4 µm** *or* **10 µm thickness)** **per section**
e.g. neocortex, cerebellum	50 €	25 €	2,50 €
e.g. hippocampus, amygdala, large subcortical nuclei, thalamus	75 €	37,50 €	3,75 €
e.g. substantia nigra, subthalamicus, spinal cord	100 €	50 €	5 €

1) A unit is defined as:
- up to 1 cm^3 large block of frozen tissue;
- up to 1 cm^3 large block of formalin fixed tissue.

In individual cases the allowance can be increased. Possible criteria for this are:

- additional diagnostic service (e.g. additional histological staining, genetic analyses etc.);
- additional tissue treatment (e.g. DNA extraction, RNA extraction);
- additional service for determining quality of tissue (e.g. determination of the RNA integrity using bioanalyzer);
- tissue dissection under a specific protocol;
- additional clinical information.

Packaging and declaration costs for the tissue samples are at the expenses of the applicant.

We explicitly point out that the shipment may be subject to sales tax.

Furthermore, we explicitly point out that our material is biomaterial. There are no guarantees with regard to ideal preparation/sample.

Place of performance is Munich.

If the recipient wishes the shipment of tissue samples, the risk of accidental loss and accidental deterioration of the tissue samples passes to the recipient the moment the forwarding agent or the person responsible for the delivery receives the shipment.

I have taken notice of the NBM Fees and accept them:
